March 26, 2015

**Farmingville, NY** - On March 24, Supervisor Ed Romaine (left) and Islip Town Supervisor Angie M. Carpenter (right) signed an Intermunicipal Agreement (IMA) to allow the disposal of ash residue from Islip's Resource Recovery Facility into the Brookhaven Landfill. The terms of the agreement also allows Brookhaven to accept construction and demolition debris, street sweepings, and crushed glass.

"I am happy to have the Town of Islip on board with this intermunicipal agreement," said Supervisor Romaine. "Cost-efficient and proper disposal of ash and other materials is beneficial to the environment and saves taxpayer dollars. We have a history of cooperation with our neighboring towns and I look forward to working with Supervisor Carpenter on more initiatives like this in the future."

Supervisor Carpenter said, "This is another example of an intermunicipal agreement between neighboring towns that will in the long run, benefit our residents. This partnership with Brookhaven provides Islip with an avenue for disposal of ash, construction debris and other materials in a safe and responsible manner."
